Valtera Corporation

Better Organizations Through Better Science®

Summary

Valtera is a professional services firm that provides science-based human capital consulting and technology to organizations worldwide. Valtera premier solutions are crafted from a research base, yet they are innovative, practical, and tied to strategy to produce meaningful bottom line results.

Founded in 1977 and headquartered outside Chicago, Valtera has been growing steadily and now includes three regional offices in the U.S. and an international office in Prague, Czech Republic.

Target Market

Valtera has a long and successful track record of serving a broad spectrum consulting and technology for large and mid-size organizations in both the public and the private sector. More than 20% of Valtera clients are Fortune 100 companies. Industries served include: aerospace, chemicals, communications, consumer products, distribution and diversified manufacturing, energy, financial services, food services, pharmaceuticals, retail, technology and transportation. Valtera also serves state and local government agencies.

Services

- Leadership Assessment
- Testing and Selection
- Employee Engagement
- Surveys and Analytics
- HR Legal Support

Branded Technology Products

Valtera's Sage Technology Suite is made up of three powerful web-based products: **SelectionSage**®, an online testing platform, **3SixtySage**®, a multi-rater feedback platform, and **SurveySage**®, a global platform for general purpose surveys (e.g., employee opinions, engagement, customer satisfaction, compliance).

Other software products include: Valtera Action Planning™, Valtera Survey Portal™, Valtera Interview™, and Valtera Resource Bank™.
